# White River Community Solar Project

## Background

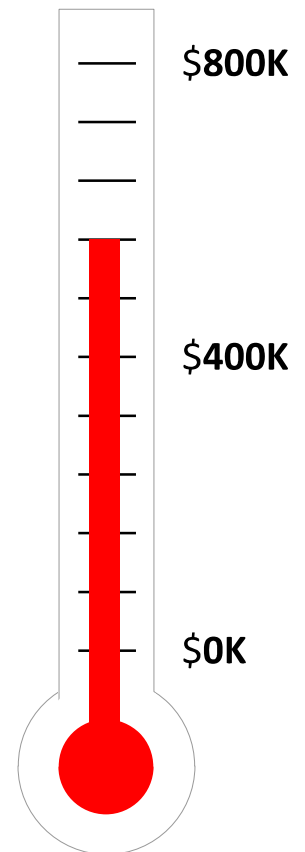

The Northern Cheyenne were awarded \$4M to launch their own solar program. The Department of Energy requires the tribe to provide 20% of the project as matching funds.

## Project Goals

Build multiple types of solar projects that enable the tribe gain the experience to develop, build, and manage solar energy systems.

## Benefits

- 15 Elder homes will receive 10kW solar systems
- Build multiple solar arrays to reduce electrical costs at a school and Head Start building
- Create a local workforce that will help build solar projects in the future
- Pave the way for the tribe to build more solar and energy efficiency projects in the future.

Help us raise the matching funds for the  
White River Community Solar project
